

Come Away
(Asi Meskin)

Come away with me to another land
I will try to be a different man
Promise it won't be a waste of time

Come away with me to another world
I can show that I can make it work
If you only give it one more try

And you'll see higher mountains than these
You'll hear different voices in time

Cause when you're alone
Things don't come easy
Don't come easy at all
Cause when you're alone
Things don't come easy at all

Come away with me to another land
I will try to be a different man
Promise it won't be a waste of time

Come and stay with me for a little while
Don't be so unsure of the things you try
Life can be so different in the end

And you'll see higher mountains than these
You'll hear different voices in time

Cause when you're alone
Things don't come easy
Don't come easy at all
Cause when you're alone
Things don't come easy at all

You know I've been waiting
For you
You know I've been waiting
For you
